PLATFORM INFRASTRUCTURE

Built for Scalable Early-Career Hiring

A structured operational ecosystem designed to bridge national workforce readiness with enterprise talent acquisition requirements.

Competency-Based Talent Matching

Eliminate arbitrary experience barriers. Our matching framework evaluates demonstrated technical proficiency, verified project artifacts, and coursework relevance to connect early professionals with high-growth teams.

Project Artifact Evaluation | Structured Onboarding | Direct Interview Routing

Zero-Fraud Verification Firewall

Every corporate partner undergoes commercial entity validation (NIB/TDP) to ensure absolute protection against fraudulent placement practices.

✓ 100% Commercial Entity Vetting

Workplace Readiness Sprints

Structured curriculum modules: financial modeling, SQL data querying, cross-functional stakeholder communication, and technical interview simulations.

⚠ National Employment Regulatory Compliance

In adherence to Indonesian Manpower Law No. 13/2003 and modern corporate ethics standards:

1. Strict Zero-Placement Fee

Employers on KitabisaKerja are legally bound not to charge administrative, testing, or processing fees of any kind.

2. Verified Corporate Entities

All job postings require formal validation of business registration (NIB), legitimate tax ID (NPWP), and verified corporate domains.

3. Structured Candidate Privacy

Personal data is strictly protected under Law No. 27/2022 on Personal Data Protection (UU PDP) and never monetized to third parties.
